Gentlemen

Enclosed is the Operable Unit (OU) 11 Final Combined Phases RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Report and response to comments for your review and approval. Submittal of this document meets the requirements as established in Table 6 of the Interagency Agreement.

Based on the results presented in the RFI/RI Report, and the recommendation of "No Action", Department of Energy (DOE) proposes a further review of the Process Improvement Proposal (94-DOE-06354). DOE suggests that all of the milestones submitted in the proposal be deleted. The only remaining deliverables will be the Draft and Final Responsiveness Summaries and the Draft and Final Corrective Action Decision/Record of Decision. DOE anticipates that these milestones will be completed this fiscal year.

The DOE thanks the members of the OU 11 Working Group for working diligently to resolve any comments on the draft report and expediting the completion of this project. If you have any questions or would like to have a meeting to discuss any outstanding issues or unresolved comments, please call Dave George at 966-5669.

Sincerely,

Steven W Slaten
